

STANDARD MOTOR PRODUCTS, INC.
CONFLICT MINERALS POLICY STATEMENT

As of February 27, 2013

Standard Motor Products, Inc. (“SMP”) strives to maintain the highest standards of ethical conduct and integrity in all areas of its business and takes very seriously the worldwide concerns of violence and human rights violations in the mining of certain minerals from the Democratic Republic of the Congo and surrounding countries (the “Conflict Region”).

SMP is committed to a policy (a) whereby SMP does not knowingly contribute (whether directly or indirectly) to human rights violations in the Conflict Region, and (b) that any gold, tantalum, tungsten, or tin (“Conflict Minerals”) that may be contained in any of its products are not directly or indirectly benefitting armed groups in the Conflict Region.

In support of this effort, SMP shall strive to:

- Develop and implement procedures that are designed to demonstrate that any Conflict Minerals contained in its products are sourced in accordance with this Policy;
- Encourage its suppliers to implement policies and procedures toward preventing the use of Conflict Minerals sourced from mines controlled by armed groups in the Conflict Region similar to this Policy;
- Require its suppliers to document their efforts to determine the source of any Conflict Minerals provided to SMP; and
- Encourage its suppliers to source, if practicable, Conflict Minerals from smelters certified through the EICC/GeSI Conflict Free Smelter (CFS) program.
